To whom it may concern,

I would like to take this opportunity to recommend Julie Stoller as a business writing consultant. Julie completed an assignment with our Student Account Operations Office at Northeastern University during the 18/19 academic year. The assignment included several desktop procedure for our billing and operations processes. Some of which were very complex and lengthy.

Julie was professional, timely and thorough. She was a pleasure to work with.

We were pleased with the outcome of the work and would welcome the opportunity to hire Julie again.

Regards,
